Thematic Collections *continued*

HEALTH AND MENTAL HEALTH

AHRQ Multiple Chronic Conditions Research Network Data Archive
www.icpsr.umich.edu/AHRQMCC

The AHRQ MCC Research Network seeks to advance the field of Multiple Chronic Conditions (MCC) research, provide guidance for clinicians and patients, and advise policy makers about methods that promote quality care. This archive disseminates data created by the research network.

Center for Population Research in LGBT Health
www.icpsr.umich.edu/FENWAY

This collection stimulates research related to health in lesbian, gay, bisexual, and transgender populations. It creates opportunities for researchers to plan further investigation and makes available hundreds of datasets.

Health and Medical Care Archive
www.icpsr.umich.edu/HMCA

HMCA preserves and disseminates data collected in research projects funded by the Robert Wood Johnson Foundation. These data possess significant secondary-analytic value for expanding knowledge about — and improving — health in the United States.

CRIMINAL JUSTICE

National Archive of Criminal Justice Data
www.icpsr.umich.edu/NACJD

NACJD facilitates and encourages criminal justice research by preserving and sharing data resources, and by providing training in quantitative analysis.

Project on Human Development in Chicago Neighborhoods
www.icpsr.umich.edu/PHDCN

PHDCN is a large-scale, interdisciplinary study of how families, neighborhoods, and schools affect child and adolescent development. The project examined juvenile delinquency, adult crime, substance abuse, and violence. The archive disseminates this data to researchers.

Integrated Fertility Survey Series
www.icpsr.umich.edu/IFSS

IFSS enhances knowledge about reproductive health, contraceptive use, pregnancy, and other health issues in the U.S. population over five decades. It offers access to 10 national studies of fertility as well as a single dataset composed of harmonized variables across the 10.

National Addiction & HIV Data Archive Program
www.icpsr.umich.edu/NAHDAP

NAHDAP's mission is to facilitate research on drug addiction and HIV infection by acquiring, enhancing, preserving, and sharing data produced by research grants, particularly those funded by the National Institute on Drug Abuse. NAHDAP supports secondary data analysis through technical assistance and specialized training for data depositors and data users.

Substance Abuse and Mental Health Data Archive
www.icpsr.umich.edu/SAMHDA

SAMHDA provides public data access and online analysis for important substance abuse and mental health data collections. The project offers variable-level searching, an archive of survey instruments, related literature for data collections, a listserv, disclosure analysis, and traditional data products. It was established at ICPSR in 1995 by the Office of Applied Studies (OAS), Substance Abuse and Mental Health Services Administration (SAMHSA).

INSTRUCTIONAL DATA

TeachingWithData.org
TeachingWithData.org

TeachingWithData.org provides educational materials designed to improve quantitative literacy skills in post-secondary social science courses. Resources include learning activities, data tools, and pedagogical services.

Membership

Our growing membership encompasses about 740 educational and research institutions around the world. Members include universities and colleges, national data archives, statistical and research agencies, government departments, and nonprofit organizations.

Individuals affiliated with member institutions have direct, free access to ICPSR's data archive of over 7,350 studies. They also get powerful search tools, user support, and instructional resources. Researchers can use ICPSR's services to ensure long-term data preservation as well as fulfill funder requirements for data management plans (DMP).

Membership is available to all institutions. University fees are based on Carnegie classification. Associate memberships are available for nonacademic organizations.

Guide to Specialized Data Collections

About ICPSR

ICPSR is the world's largest archive of behavioral and social science research data. We advance research by acquiring, curating, preserving, and distributing original behavioral and social science data. We are a vital partner in research and instruction.

What We Do

As a global leader in data stewardship, we support researchers, students, instructors, and policy makers who:

- Conduct secondary research to support primary research findings or generate new findings
- Preserve and disseminate primary research data
- Study or teach statistical methods in quantitative analysis
- Write articles, papers, or theses to fulfill undergraduate or graduate requirements
- Develop funding proposals for grants or contracts that require a data management plan (DMP)

Value-Added Data Resources

- *Bibliography of Data-related Literature* with links to thousands of full-text articles and reports
- Analysis-ready data in multiple software formats including SPSS, SAS, Stata, and R
- Online data analysis using the Survey Documentation and Analysis package (SDA), which allows users to run analyses without additional software

Data Management and Curation

We curate data to add value, maximize access, and ensure long-term viability. Our specialists organize, describe, clean, enhance, and preserve data — much like the curatorial work done on paintings or rare books. We also can generate restricted-use versions of sensitive datasets. Additionally, researchers can fulfill funding agencies' data management plan (DMP) requirements by archiving data with ICPSR. Our staff handles user support, freeing the original research team from that responsibility.

Thematic Collections at ICPSR Stimulate Research

ICPSR hosts and sponsors several specialty data collections. These archives are organized into the eight thematic areas indicated below and on the back panels. Most collections are sponsored by federal or nonprofit entities and have publicly available data.

AGING

National Archive of Computerized Data on Aging
www.icpsr.umich.edu/NACDA

> NACDA advances research on aging by helping researchers unlock the underexploited potential of a broad range of datasets. It acquires, preserves, and disseminates data relevant to gerontological research.

RACE AND ETHNICITY

Resource Center for Minority Data
www.icpsr.umich.edu/RCMD

> RCMD provides resources to facilitate analysis of issues affecting racial and ethnic minority populations. The center offers access to a vast array of data, as well as enhancements and analytic tools.

TERRORISM

Terrorism & Preparedness Data Resource Center
www.icpsr.umich.edu/TPDRC

> TPDRC archives and distributes data collected by governmental and non-governmental organizations and by researchers about the nature of domestic and international terrorism incidents, organizations, perpetrators, and victims.

DEMOGRAPHIC DATA

Data Sharing for Demographic Research
www.icpsr.umich.edu/DSDR

> DSDR provides data and related services in demography and population studies. It aims to improve the science of data sharing, support utilization of restricted-use data, and provide user-support services and community outreach.

United States Census Data
www.icpsr.umich.edu/ICPSR/themes/census

> This collection serves as a focus for ICPSR's over 830 U.S. Census holdings. It provides information about all Census data and documentation files, guidelines to aid researchers, training activities, and links to relevant sites.

EDUCATION

Child Care & Early Education — Research Connections
www.researchconnections.org

> Research Connections promotes research in child care and early education and the use of research in policy making. It provides more than 24,000 data resources.

Measures of Effective Teaching Longitudinal Database
www.icpsr.umich.edu/METLDB

> The MET Longitudinal Database contains a diverse set of quantitative data from the Measures of Effective Teaching (MET) project, the largest-ever study of U.S. classroom teaching. It includes surveys, standardized instrument scores, and student assessments. It also has thousands of hours of classroom video data.

NCAA Student-Athlete Experiences Data Archive
www.icpsr.umich.edu/NCAA

> This archive is the repository for data from National Collegiate Athletic Association member institutions and student-athletes collected to address research questions and to assist in the development of athletics policies.

PreK-3rd Data Resource Center
www.icpsr.umich.edu/PREK3RD

> This collection works to expand the knowledge base and provide tools for access and handling of prekindergarten-through-third grade research data. The objective is to inform the Foundation for Child Development's PreK-3rd initiative and facilitate analysis of longitudinal datasets containing variables on children, families, neighborhoods, and schools.
