The Directed Reading Program (DRP) is run by graduate math students for undergraduate math and science students. Each undergraduate mentee is paired with a graduate mentor, with whom the mentee meets weekly to discuss their reading of a topic in mathematics. Near the end of the semester, the mentees give a talk on what they’ve learned at the DRP Final Project Presentations. For more details and sample project topics, see: 

https://sites.google.com/umich.edu/drp/

In order to participate in the DRP program, you must:

- be an undergraduate student,
- have taken a math course involving proofs (e.g. Math 185 or Math 217),
- be willing to meet with your mentor once per week, and spend 4 hours per week working on your project,
- be available on the evening of December 3 for the DRP Final Project Presentations.

At the info session, we will discuss the DRP application and answer all of your questions about the program. If you have any questions, please contact the DRP organizing committee by emailing us at drp.math.umich@gmail.com

Not convinced? There will be pizza at the info session!

### How do I get involved?

**DRP Info Session**

at 4:30–5:30 p.m.
on Tuesday, September 10
in East Hall B745.

At the info session, we will discuss the DRP application and answer all of your questions about the program.

If you have any questions, please contact the DRP organizing committee by emailing us at drp.math.umich@gmail.com
