Module 3: International Trade Policy

Class 6 NAFTA and Its Renegotiation as USMCA

Class 6 Outline

NAFTA and Its Renegotiation as USMCA

- What is NAFTA?
- What happened under NAFTA?
- Issues in renegotiation
- USMCA

Lecture 6: NAFTA & USMCA

2

Class 6 Outline

NAFTA and Its Renegotiation as USMCA

- What is NAFTA?
- What happened under NAFTA?
- Issues in renegotiation
- USMCA

Lecture 6: NAFTA & USMCA

3

NAFTA – What is it?

NAFTA

“The single worst trade deal ever approved in this country” Donald Trump 2016

USMCA

“A wonderful new trade deal” & “the most important trade deal we’ve ever made, by far” Donald Trump 2018

Lecture 6: NAFTA & USMCA

4

NAFTA – What is it?

- A Free Trade Agreement (FTA) including US, Canada, and Mexico
 - Expanded a previous US-Canada FTA
 - Negotiated under President George H. W. Bush
 - Enacted 1993 under President Bill Clinton
 - Went into effect Jan 1, 1994

Lecture 6: NAFTA & USMCA

5

NAFTA – What is it?

- FTA provisions:
 - Zero tariffs on imports from each other
 - Doesn’t change tariffs on outside countries
 - Rules of origin
 - Goods cross borders tariff-free only if they “originate” in the NAFTA countries
 - “Originate” defined in terms of how much of a good was produced here
 - Example: Autos require 62.5% North American content

Lecture 6: NAFTA & USMCA

6

NAFTA – What is it?

- Other provisions
 - Some liberalization in services
 - Foreign investment
 - ISDS in Chapter 11
 - Gives foreign investors right to dispute policies that reduce profits
 - Decided by 3-person panel, who may make states pay
 - Intellectual property rights
 - Opening of government procurement
 - Governments must let NAFTA suppliers bid

Lecture 6: NAFTA & USMCA

7

NAFTA – What is it?

- Also Side Agreements on
 - Labor
 - Environment

Lecture 6: NAFTA & USMCA

8

Class 6 Outline

NAFTA and Its Renegotiation as USMCA

- What is NAFTA?
- What happened under NAFTA?
- Issues in renegotiation
- USMCA

Lecture 6: NAFTA & USMCA

9

NAFTA - What happened?

- What happened?
 - Not much, at first, in 1994
 - Mexico kept peso pegged to the dollar
 - Resisted devaluing peso in run-up to presidential election
 - Assassinations in 1994 included
 - Mar 23: PRI presidential candidate Colosio

Lecture 6: NAFTA & USMCA

10

NAFTA - What happened?

- Peso Crisis (aka "Tequila Crisis")
 - December 20, 1994 (after the election)
 - Crisis hit the foreign exchange market
 - Mexico devalued the peso
 - Devaluation had devastating effects on the Mexican economy
 - Mexico had borrowed in dollars to pay for assets in pesos
 - Devaluation meant that debt was suddenly higher than assets for many

Lecture 6: NAFTA & USMCA

11

What Happened: Mexico

Reserves Fell at Once

Lecture 6: NAFTA & USMCA

What Happened: Mexico

Peso Dropped One Year After

Lecture 6: NAFTA & USMCA

13

What Happened: Mexico

GDP Fell after Peso Crisis

14

Lecture 6: NAFTA & USMCA

What Happened: Mexico

Imports Fell after Crisis; Exports Rose

15

Lecture 6: NAFTA & USMCA

What Happened: Mexico

Wages Fell

Lecture 6: NAFTA & USMCA

What Happened: Mexico

Real Wages Plummeted!

Lecture 6: NAFTA & USMCA

What Happened: U.S.

Unemployment: No effect (or fell)

Lecture 6: NAFTA & USMCA

What Happened: U.S. Trade: Continued growth

19

What Happened: U.S. Real Wage: No Change

20

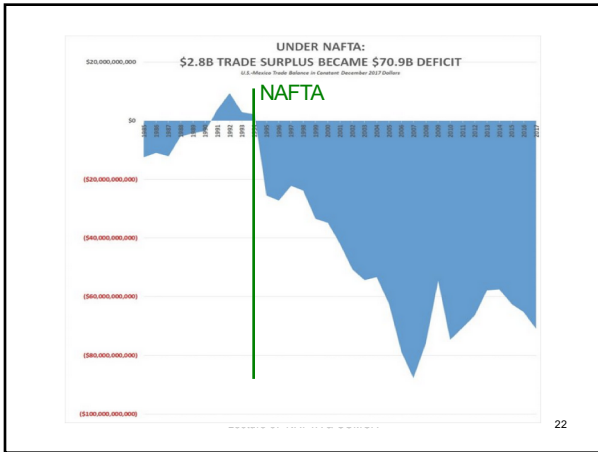

Lecture 6: NAFTA & USMCA

What Happened: Bilateral Trade Grew: But more To US than From

21

Lecture 6: NAFTA & USMCA

Supply Chains

- Much of the growth of trade within NAFTA has been supply chains
 - Final goods are produced in one country with inputs from another
 - Inputs are in turn produced with inputs from yet another
 - And so forth
- Supply chains in much of manufacturing now cross the two borders many times

Lecture 6: NAFTA & USMCA

25

Figure 2. Intermediate goods imports as a share of total imports, 2015

Lecture 6: NAFTA & USMCA

26

North American Production Platform

Half of U.S. imports from Canada and Mexico are intermediate goods that are then used in local production, a much higher share than for the European Union or China. From energy to autos, trade policy debates must recognize the unique reliance in many states on the North American supply chain.

Lecture 6: NAFTA & USMCA

27

NAFTA Analyses

- Posen (2014)
 - "For every 100 jobs US manufacturers created in Mexican manufacturing, they added nearly 250 jobs at their larger US home operations"
 - Unemployment in US was actually lower after NAFTA than before (until the 2008 financial crisis)
 - Critics say NAFTA cost 45,000 jobs a year.
 - That may be true
 - But this is only 0.1% of normal job turnover in the US, where 4m-6m workers leave or lose jobs per month)

Lecture 6: NAFTA & USMCA

28

NAFTA Analyses

- Hakobyan and McLaren (2016)
 - They look for effects on local labor markets, where
 - industries
 - and/or communities
 - were vulnerable to large tariff cuts against Mexico
 - They find
 - Substantial variation across localities

Lecture 6: NAFTA & USMCA

29

FIGURE 2.—VARIATION IN LOCAL AVERAGE TARIFF

(Includes agriculture)

(Excludes agriculture)

30

Source: Hakobyan and McLaren (2016)

Lecture 6: NAFTA & USMCA

TABLE 3.—MOST AND LEAST VULNERABLE CONSUMERS, EXCLUDING AGRICULTURE		
State	Counties/Cities	loc ₁₉₉₀ (%)
A: Top Ten Most Vulnerable Consumers		
Georgia	Catoosa, Dade, Walker	4.74
North Carolina	Alamance, Randolph	4.41
South Carolina	Oconee, Pickens	4.24
South Carolina	Including Cherokee, Chester, Chesterfield, Clarendon	3.67
South Carolina	Anderson	3.62
North Carolina	Cabarrus, Rowan	3.54
North Carolina	Alexander, Burke, Caldwell	3.51
South Carolina	Including Abbeville, Edgefield, Fairfield	3.47
North Carolina	Cleveland, McDowell, Polk, Rutherford	3.46
Indiana	Gary	3.32
B: Top Ten Least Vulnerable Consumers		
D.C.	Washington	0.09
Washington	Kitsap	0.19
Virginia	Arlington	0.21
Maryland	Calvert, Charles, St. Mary's County	0.23
Montana	Including Flathead, Lincoln, Missoula, Ravalli	0.27
Maryland	Including College Park, Hyattsville, Prince George's	0.28
Virginia	Alexandria	0.29
Montana	Including Big Horn, Blaine, Carter, Chouteau	0.30
South Dakota	Including Aurora, Beadle, Bennett, Brule, Buffalo	0.30
Iowa	Calhoun, Hamilton, Humboldt, Pocahontas, Webster	0.30

31

Lecture 6: NAFTA & USMCA

Source: Hakobyan and McLaren (2016)

NAFTA Analyses

- Hakobyan and McLaren (2016)
 - “...even workers in a nontraded industry—waiting on tables in a diner, for example—saw a sharp reduction in wages if they were in a vulnerable location that lost its protection quickly.”

Lecture 6: NAFTA & USMCA

32

NAFTA Analyses

- Disruption of some industries and localities
 - Some was expected
 - May have been larger than expected
 - Has not been dealt with adequately by TAA
 - Nonetheless was still small
 - But provides easy ammunition for critics

Lecture 6: NAFTA & USMCA

33

Discussion Question

- Do you know anybody who was hurt by NAFTA?
- Do you know anybody who was helped by NAFTA?

Lecture 6: NAFTA & USMCA

34

Class 6 Outline

NAFTA and Its Renegotiation as USMCA

- What is NAFTA?
- What happened under NAFTA?
- Issues in renegotiation
- USMCA

Lecture 6: NAFTA & USMCA

35

Issues in the Renegotiation

- Issues (US)
 - Trade imbalances
 - Reciprocal duty-free market access
 - Rules of origin
 - Regulations
 - Services
 - Digital trade
 - ISDS
 - State-owned enterprises
 - Labor standards
 - Chapter 19
 - Procurement
 - Currency manipulation

Lecture 6: NAFTA & USMCA

36

Issues in the Renegotiation

- Too many to discuss them all
- The following are just some of the more important and/or interesting

Lecture 6: NAFTA & USMCA

37

Issues in the Renegotiation

- Trade imbalances
 - The US top priority is to “Improve the U.S. trade balance and reduce the trade deficit with the NAFTA countries.”
 - That is not something that can itself be written into the NAFTA agreement
 - So the question will be which changes in the agreement might do this
 - One possibility is a “trigger mechanism” that raises tariffs if goal of reducing deficit is not met

Lecture 6: NAFTA & USMCA

38

Issues in the Renegotiation

- Reciprocal duty-free market access
 - The stated intent of the US is to “maintain” this “while taking into account U.S. import sensitivities”
 - Top objectives of both Mexico and Canada are to avoid any increases in US tariffs
 - Perhaps some of the few positive barriers that continue under NAFTA will be removed.

Lecture 6: NAFTA & USMCA

39

Issues in the Renegotiation

- Rules of origin
 - The TPP would have reduced the requirement for North American (N-A) content in autos from 62.5% to below 50%.
 - The new NAFTA will almost certainly increase this requirement for autos and other products
 - The question will be: how much, and how disruptive will it be
 - If too high, some producers will revert to sourcing from outside NAFTA
 - Lighthizer wants "higher NAFTA content and substantial American content". That would be unprecedented in an FTA

Lecture 6: NAFTA & USMCA

40

Issues in the Renegotiation

- Digital trade
 - Digital trade (& e-commerce) did not exist in 1993, and was not covered
 - All parties seem to agree that new rules should stop governments from placing restrictions on such trade
 - The TPP included this, and it may be copied here

Lecture 6: NAFTA & USMCA

41

Issues in the Renegotiation

- ISDS = Investor-State Dispute Settlement (Chapter 11 of NAFTA)
 - "While the U.S. has so far never lost an ISDS case, both Canada and Mexico have lost several, requiring payments to investors of over \$100 million." (From Gertz, Mar 2017)
 - Big corporations want this retained
 - Others want it weakened or removed

Lecture 6: NAFTA & USMCA

42

Issues in the Renegotiation

- ISDS
 - USTR calls for
 - “rules that reduce or eliminate barriers to U.S. investment” (Is that pro-ISDS?)
 - “ensuring that NAFTA country investors in the United States are not accorded greater substantive rights than domestic investors” (Is that anti-ISDS)
 - (Perhaps he wants ISDS for US companies but not for foreign companies)

Lecture 6: NAFTA & USMCA

43

Figure 11.1 Number of investor-state dispute settlement (ISDS) cases, 1987, 1993–2014 (Not just NAFTA)

Issues in the Renegotiation

- Chapter 19
 - This now allows NAFTA countries an appeal against AD & CVD actions
 - Canada insists on keeping it
 - US wants it removed
 - You can see why from the data below

Lecture 6: NAFTA & USMCA

45

Issues in the Renegotiation

- Procurement
 - NAFTA currently required governments to open procurement to suppliers from all NAFTA countries
 - US wants to allow governments a preference for their own suppliers (“Buy American”)
 - US might even ask for all three governments to give preference to US suppliers, not their own!

Lecture 6: NAFTA & USMCA

48

Issues in the Renegotiation

- Currency manipulation
 - This seems an odd thing to include in NAFTA, since nobody has accused either Mexico or Canada of doing it
 - Intent is probably to have it (for the first time in an FTA) as a template for later FTAs with, say, Japan or China

Lecture 6: NAFTA & USMCA

49

Issues in the Renegotiation

- Dairy & poultry
 - Canada wants to keep its “supply management system for dairy and poultry”
 - Supply management allows farmers to act collectively to manage supply and price
 - Canada has a 270% tariff on dairy imports (with a small quota tariff-free)
 - This was exempted from liberalization in NAFTA

Lecture 6: NAFTA & USMCA

50

Class 6 Outline

NAFTA and Its Renegotiation as USMCA

- What is NAFTA?
- What happened under NAFTA?
- Issues in renegotiation
- USMCA

Lecture 6: NAFTA & USMCA

51

USMCA

- Outcome of the Renegotiation
 - May 18, 2017: Renegotiation began
 - Aug 27, 2018: Agreement reached between US and Mexico
 - Sep 30, 2018: Agreement reached with Canada to join USMCA

Lecture 6: NAFTA & USMCA

52

USMCA

- Features of USMCA
 - Auto rules of origin
 - Required North American content raised from 62.5% to 75%
 - 40-45% content must be from labor paid \$15/hr or more (but does not rise with inflation)

Lecture 6: NAFTA & USMCA

53

USMCA

- Features of USMCA
 - New rules (similar to TPP) on
 - Intellectual property
 - Environment
 - Labor
 - Financial services
 - Digital trade

Lecture 6: NAFTA & USMCA

54

USMCA

- Features of USMCA
 - Sunset clause? Not exactly
 - Revisit deal after 6 years
 - If happy, extend for 10 more
 - If not, new negotiations

Lecture 6: NAFTA & USMCA

55

USMCA

- Features of USMCA
 - Canadian dairy
 - Canada will increase permitted imports of dairy from US, to 3.6% of its market
 - Canada to cease selling some dairy ingredients abroad and low prices and will tax exports over some threshold

Lecture 6: NAFTA & USMCA

56

USMCA

- Features of USMCA
 - Currencies
 - Commitment to “refrain from competitive devaluations and targeting exchange rates”

Lecture 6: NAFTA & USMCA

57

USMCA

- Features of USMCA
 - Trade with China
 - Countries must inform US 3 months before beginning trade negotiations with any “non-market economy” (i.e., China)
 - If agreement with such economy is reached, US can terminate USMCA with six months notice.

Lecture 6: NAFTA & USMCA

58

USMCA

- Features of USMCA
 - Chapter 19
 - Keeps this dispute settlement system for trade remedies such as anti-dumping
 - Does not apply them to “national-security-based” tariffs

Lecture 6: NAFTA & USMCA

59

USMCA

- Features of USMCA
 - Chapter 11 (ISDS)
 - Removes this for disputes between US and Canada
 - Keeps it for disputes with Mexico

Lecture 6: NAFTA & USMCA

60

USMCA

- “Side letter” of USMCA
 - Promise to shield Canada Mexico from future “national-security-based” tariffs (i.e., cars) (not enforceable)
 -

Lecture 6: NAFTA & USMCA

61

USMCA

- NOT a Feature of USMCA
 - Removal of US recent tariffs on steel and aluminum from Canada and Mexico

Lecture 6: NAFTA & USMCA

62

USMCA

- Prospects for approval
 - Must be approved by all three legislatures
 - Canada: Dairy will resist, but approval assures
 - Mexico: Incoming President wants it done
 - US: Contentious, but best hope is approval in lame-duck session

Lecture 6: NAFTA & USMCA

63

USMCA

- Importance of USMCA
 - Trump: “It’s not NAFTA redone, it’s a brand-new deal”
 - NYT: “a consequential set of revisions”
 - Economist: “a modest revision”, “inferior to the agreement it replaces”
 - Bown: deal to “result in less trade, not more”

Lecture 6: NAFTA & USMCA

64

Discussion Question

- Who would you say “won” and “lost” from the NAFTA renegotiation?

Lecture 6: NAFTA & USMCA

65

Lecture 6: NAFTA & USMCA

66

Lecture 6: NAFTA & USMCA

67

Lecture 6: NAFTA & USMCA

68
