

Math 116-005—Winter 2017

Instructor: Kwun “Angus” Chung

Office: EH 1848

Email: angusck@umich.edu

Office Hours: Monday, Wednesday 2:30-3:30pm, my office; Monday 11am-12pm, in Math Lab (EH B860).

Text: *Calculus* by Hughes-Hallet, Gleason, et al., 6th Edition, published by John Wiley and Sons.

Calculator: TI-84, TI-89 TI-Nspire or equivalent. If you have another model, you will be responsible for knowing how to use it. Bring your calculator to class each day and to the Uniform Exams.

General Course Web Site: <http://www.math.lsa.umich.edu/courses/116/>

This site has important information including the Student Guide and homework assignments. The web site will be updated with exam rooms and other information as the semester progresses.

<http://www-personal.umich.edu/~angusck/m116win17/>

This is the website specifically for this session. Some useful links are posted here.

Homework: Daily homework will be assigned from each section that we cover. These assignments will be worked on the web, and the web homework will count for 5% of the Exam Component of your final grade. In order to do well in class, you must keep up with the daily assignments. In addition, you will be given regular team homework assignments, and a large portion of your in-class grade will be based on these group assignments.

Quizzes: There will be short weekly quizzes. No make-up quizzes will be given, but I will drop your two lowest quiz score when I compute your final grade.

Uniform Exams:

First Exam	Monday, February 6	6 - 7:30 pm
Second Exam	Monday, March 20	6 - 7:30 pm
Final Exam	Monday, April 26	8:00 am - 10:00 am

Dates for the exams are fixed. Generally, only students with a regularly scheduled class are accommodated at an alternate time. Anyone with a regularly scheduled class during these exam times should let me know as soon as possible. Make plans now to be certain these dates are in your calendar. Note that travel is *not* a sufficient excuse to have an exam scheduled on a different day. If you miss a uniform exam without a documented excuse, your course grade will be penalized.

Cheating: Do not cheat. If you cheat on a quiz or exam, you risk failing the course.

Responsibilities: As a student in this course, you have a lot of responsibilities. You are responsible for reading the book before you come to class (readings will be assigned in the previous class). You are responsible for being a good group member in and out of class. This means working with others as a team, problem solving, coordinating team meetings, and doing your best to support your team. You are responsible for the dates and times of all assignment due dates and exams for the course. Most of all, you are responsible for your own learning – you will need to put effort into this class in order to succeed, and I truly believe all of you can succeed! As for my part, I will try to be the best teacher I can be this semester.

Grading Policy: All sections of Math 116 use the same grading guidelines to standardize the evaluation process. A complete explanation of the grading policy is given in the Student Guide on the course web site. Look under the heading “Grading System”. We will have a short quiz over the Student Guide (including the grading policy!) during the first week of class.

In Class: You are required to come to class. Students who do not attend their Math 116 class rarely succeed in the course. In-class group work is used frequently in this class to introduce and develop concepts. Important announcements will be given in class and you are responsible for this information. Should you miss a class, please be sure to get notes and other important information from a classmate.

You must bring your book and your calculator to class each day. We will use these items frequently during class.

No cell phones, ipods, computers or other gadgets may be used in class. Texting is strictly prohibited. If you use the electronic version of the text, you will need to ask a member of your table to share the text with you when we use it in class. If you break this rule, I will take your technology away.

Come to class on time and do not leave early. If you have to arrive late or leave early, please let me know in advance.

Math Lab: Free tutoring from the Mathematics Department.

Hours: Monday through Thursday 11am - 4 pm and 7-10 pm
Friday 11 am-4 pm
Sunday 7 pm-10 pm
Location: East Hall B860

Any student with a documented disability should contact me as soon as possible so that we can discuss arrangements to fit your needs.
