The graph shows the power spectrum in mW/Hz as a function of frequency in Hz. The power spectrum data is from the file `test_042710_500_0deg_horiz_ptbon.dat.proc`. The graph indicates the following noise levels:

- ACNOISE1MHz: -89.7 dBm
- ACNOISE100KHz: -89.7 dBm
- DCNOISE: -88.5 dBm
