

Lullaby

I keep on running just to keep from dying
I am addicted to your easy game of touch and go with me
You tell me I'm the only one, so I make believe
You charm me like a gypsy and rob me like a thief

You lullaby me blind to true love
Blind to you what you do
You lullaby me blind to danger
Stranger who are you
You lullaby the sun behind me
Cause I don't want to see
You lullaby me blind

I have given everything I am to you and so much more
And have forgotten what it's like to live a life outside these walls
I live inside this fortress I did not help to build
If the darkness doesn't kill me, the light of freedom will

You lullaby me blind to true love
Blind to you what you do
You lullaby me blind to danger
Stranger who are you
You lullaby the sun behind me
Cause I don't want to see
You lullaby me blind

La, la, la, la, la, la, la, la, lullaby me blind...

You lullaby me blind to true love
Blind to you what you do
You lullaby me blind to danger
Stranger who are you
You lullaby the sun behind me
Cause I don't want to see
You lullaby me blind
