Stu

We are proud to be rated one of "America's 100 Best College Buys" and counted as one of "The Best 361 Colleges" by *The Princeton Review* – honors that place us among America's top institutions of higher learning. Each year, University of Arkansas students stake claim to the nation's most prestigious scholarships and awards. These points of pride give the University of Arkansas and your future degree distinction and greater recognition.

NATIONALLY COMPETITIVE

University of Arkansas

We know the significance of your college experience is not what it means to other people, but instead, what it means to you. National recognition won't help you write your first research paper or recommend which classes to take or encourage your involvement on campus. For that, you need a community of people dedicated to helping you reach your goals. You'll find it at the University of Arkansas: one-on-one relationships and once-in-a-lifetime experiences.

STUDENT CENTERED

Nationally Competitive. Student Centered.

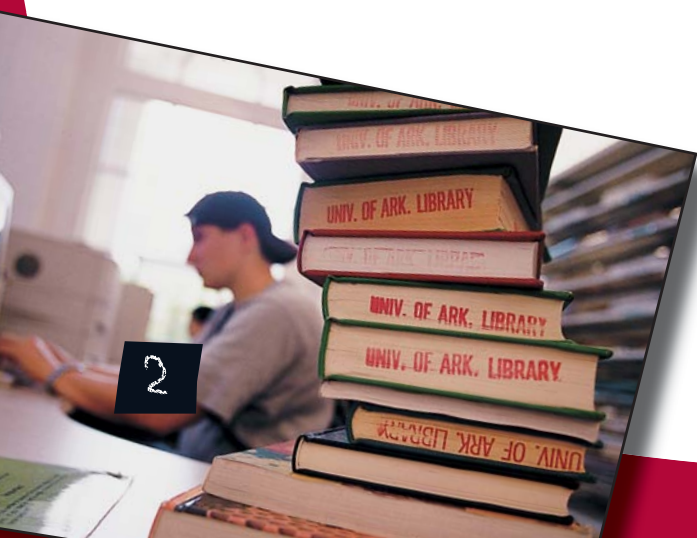

Research University. FIND OUT WHAT'S IN IT FOR YOU.

ACADEMICS

NATIONALLY COMPETITIVE

The University of Arkansas:

- is categorized as a "Research Extensive" institution by the Carnegie Foundation. This places us in the top 10 percent of universities nationwide and in a class by ourselves within the state of Arkansas;
- shares prestigious company (with Harvard, Princeton, and Duke) as one of only 12 institutions in the nation to have four students recently selected as Barry Goldwater Scholars, the maximum number of Scholars allowed at a university in any given year;
- was one of four institutions of higher learning nationally to be selected as a Truman Foundation Honor Institution Award recipient, an honor previously given to universities such as Brown, Georgetown, and Cornell;
- spends more than \$80 million on research annually, which funds state-of-the-art lab facilities and research support for hundreds of students and faculty.

What can you expect from academic life at the University of Arkansas?

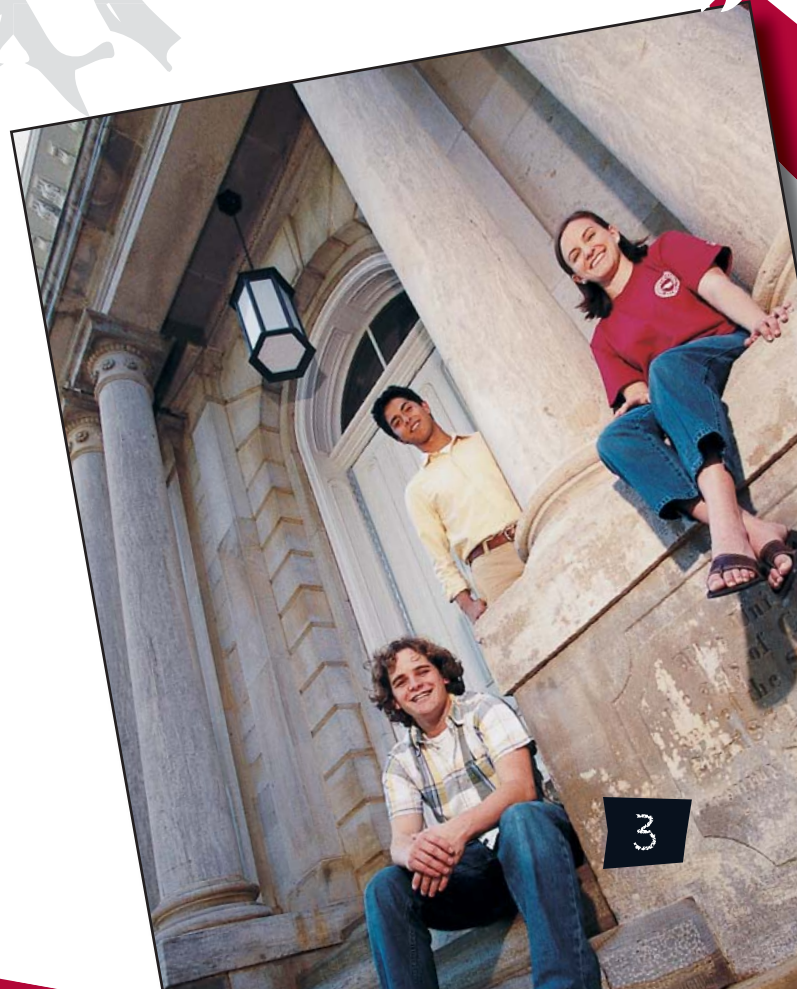

Classes that challenge you to ask questions, faculty who inspire you to seek answers, and fellow students who push you to excel.

STUDENT CENTERED

The University of Arkansas:

- offers over 200 academic programs (more than offered at some universities twice our size), which means you'll find the major that's right for you;
- boasts an 18:1 student-to-faculty ratio;
- enrolls no more than 29 students in 73 percent of its undergraduate classes;
- encourages undergraduate research in virtually every discipline;
- provides study abroad and internship opportunities that will equip you with the knowledge and skills necessary to compete successfully in your chosen profession;
- makes higher education affordable with low tuition and generous financial aid.

COLLEGES AND SCHOOLS

DALE BUMPERS COLLEGE OF AGRICULTURAL, FOOD AND LIFE SCIENCES

www.uark.edu/depts/dbcafls/

Bumpers College offers 14 diverse majors and 21 minors for students interested in plants, animals, the natural environment, and the human environment. Graduates gain a competitive edge through courses and mentoring by nationally prominent faculty members in each major.

The College includes the School of Human Environmental Sciences, which features such popular majors as apparel studies; interior design; human and family sciences; and food, nutrition, and hospitality. Other popular majors include animal, equine, and poultry sciences; business; the environment; crop production; horticulture, turf and landscape management; food science; education; communication; technology; and biological engineering. Bumpers College offers a personalized education with flexible programs that allow you to combine majors and minors.

You'll find a family-like, student-centered environment and the latest learning technologies in modern, comfortable classrooms and labs. You'll get personal attention from instructors and make friends with students who share your interests.

Through internships across the United States and global study opportunities offered through Bumpers College, you will gain hands-on, professional experience and job networking opportunities.

You'll be prepared for a career in business, science, education, or public service related to the human environment or the natural environment, as well as the production and care of plants and animals. A bachelor's degree from Bumpers College can open doors to graduate and professional programs in business, law, medicine, veterinary medicine, and many other fields.

J. WILLIAM FULBRIGHT COLLEGE OF ARTS AND SCIENCES

www.uark.edu/~arsc/

The Fulbright College of Arts and Sciences offers premier programs in the liberal arts and sciences. Committed to the legacy of J. William Fulbright, the College promotes an international perspective and encourages students to explore other cultures and values.

Our reputation for academic excellence is built on the continuing success of our students, who regularly win the most competitive awards in the nation, including Barry Goldwater Scholarships, Rhodes, and Marshall Scholarships.

We know you'll find a program to capture your interest. In the J. William Fulbright College of Arts and Sciences you can study subjects ranging from ancient Egyptian dynasties to the latest breakthroughs in nanotechnology. The College has more than 1,700 courses each semester, 19 departments, and numerous interdisciplinary programs from which to choose.

Fulbright College can show you the world. Take advantage of study abroad programs in Australia, Canada, Europe, Latin-America, Africa, and Asia.

As a graduate of Fulbright College, you'll enjoy rewarding opportunities. Our alumni include judges, diplomats, corporate leaders, performing artists, scholars, scientists, psychologists, reporters, and broadcasters.

LUIS MANJARREZ

Pre-Dental - Fort Smith, AR

"I'd visited several universities before applying to the University of Arkansas. I wanted a school with a top curriculum where I could interact with my teachers and other students. I have made a lot of friends at the U of A. We take courses together and chat between classes."

COLLEGES AND SCHOOLS

SAM M. WALTON COLLEGE OF BUSINESS

waltoncollege.uark.edu

Named in honor of one of the world's most successful retailers, the Sam M. Walton College of Business is among the nation's most reputable business schools. Our professors generate research funding and earn national accolades. Our students earn national recognition as well.

In every area of study, the Walton College uses innovative teaching, cutting-edge technology, and practical experiences to produce graduates who make important and immediate contributions to the business community.

The innovative core curriculum integrates real business solutions into dynamic business courses, providing you with the knowledge and flexibility employers seek.

Visit New York's financial district as part of your Portfolio Management class.

Develop a business

plan that earns top honors in the Donald W. Reynolds Governor's Cup competition. Sit in on a Wal-Mart "Big Picture" fashion planning meeting, arranged by our Center for Retailing Excellence. You'll have these opportunities and other real-world experiences at the Walton College.

Our regular "Business Giants" forum gives you a chance to interact with top corporate leaders. In recent years, guests have included CEOs Kirk Thompson of J.B. Hunt Transport Services, Lee Scott of Wal-Mart, and Scott Ford of Alltel.

Study Abroad opportunities in China, Italy, Japan, Mexico, Spain and other countries give your business studies cultural relevance and global perspective.

COLLEGE OF EDUCATION AND HEALTH PROFESSIONS

www.uark.edu/depts/coehp/

The College of Education and Health Professions prepares the professionals who touch people's lives everyday. We are ready to welcome you to the challenge of competitive programs of study, programs that can prepare you for exciting careers focusing on people at all stages of life.

We emphasize hands-on learning. As an undergraduate, you may assist clients in the college's speech and hearing clinic, intern with regional health care centers or help train Razorback athletes. Set your self apart by taking advantage of research opportunities by enrolling in our Honors Program, joining top students in a challenging curriculum.

Graduates enter demanding professions and enjoy fulfilling and worthwhile careers. One hundred percent of our nursing graduates who seek professional employment find jobs in the medical profession. Schools throughout the state and region compete to recruit our education graduates. In every discipline, our programs meet the highest state and national accreditation standards and licensure requirements. Our teacher preparation program has been honored by the National Association of Teacher Educators.

As an undergraduate in the College of Education and Health Professions you will enjoy a college experience that fully prepares you for a satisfying career or for graduate studies.

Leadership

LAIDA BLAIR

Nursing - Pine Bluff, AR

“This is a wonderful university for highly committed students. At the University of Arkansas, I found others with a similar passion for learning and friendships that will last a lifetime.”

COLLEGES AND SCHOOLS

COLLEGE OF ENGINEERING

www.engr.uark.edu

The University of Arkansas College of Engineering has a national reputation for offering some of the finest, most integrated learning opportunities available. Students learn from and work with professors who are top innovators and researchers in their fields using technologically-advanced facilities such as the Engineering Research Center, the High Density Electronics Center, and the Chemical Hazards Research Center.

As a part of Arkansas' only fully accredited engineering program and a highly-charged academic community, undergraduate students are able to pursue research and work to solve real-life engineering issues. Top companies

and industry leaders frequently offer our students rewarding jobs, research, internships, and cooperative education opportunities. Within three to six months of graduation, all of our students have found jobs, and the success of our alumni as flourishing entrepreneurs, corporate leaders, and renowned researchers continues to grow, one graduate at a time.

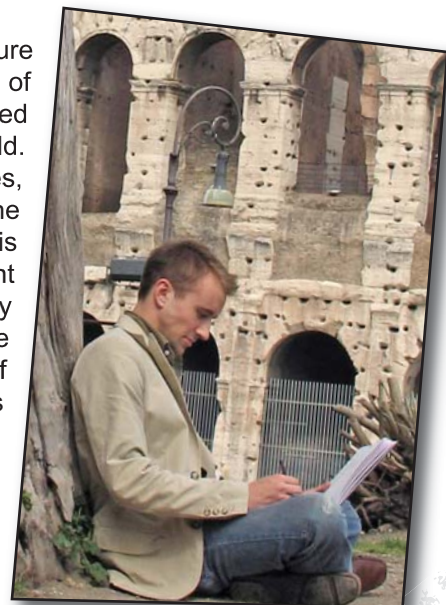

With a 16-to-1 student-to-faculty ratio, U of A engineering students get plenty of individual attention. With the only comprehensive engineering program in the state, we have bachelor's, master's and doctoral programs in all the major engineering disciplines, as well as several multidisciplinary programs to help students create a tailor-made educational track to meet their individual interests. A few examples include programs in biological engineering, nanotechnology, and biomedical engineering. An engineering degree from the U of A College of Engineering will take you where you want to go, offering plenty of fun, excitement, and freedom to grow along the way.

SCHOOL OF ARCHITECTURE

www.uark.edu/~archsite/

The School of Architecture has trained thousands of architects and produced true luminaries in the field. One of our first graduates, Fay Jones, transformed the organic architecture of his mentor Frank Lloyd Wright into his own rich vocabulary of form and pattern. The American Institute of Architects awarded Jones the prestigious Gold Medal and ranked his Thorncrowne Chapel in Eureka Springs as one of the five best buildings by an American architect in the 20th century.

Mastering architectural concepts and skills requires time, space, and an intensity of focus. As a student in our school, you'll have your own workstation where you can construct projects, store your computer, and work virtually anytime.

In the School of Architecture you'll gain hands-on experience. Some of our students' recent projects include:

- Traveling to Rome, Florence, Paris, and Mexico City to study some of the world's most enduring architecture and landscapes;
- Developing award-winning new designs for "big box" super stores;
- Creating new features at Garvan Woodland Gardens, a 210-acre woodland habitat with a variety of garden settings and unique architectural structures;
- Helping Arkansas communities and organizations develop strategies that encourage economic growth, enhance the environment, and improve public health.

You'll be prepared for the future whether you become a licensed architect or landscape architect. A degree from our program also prepares you for city planning, construction management, historic preservation, industrial design, or graduate studies.

JENNIFER DAVIDSON

Industrial Engineering - San Antonio, TX

"I have learned there is a lot I can do with a degree in industrial engineering. Besides technical and scientific knowledge and skills, I have acquired valuable communication, interpersonal, and business skills. I am confident I will leave the U of A ready to handle anything."

FACULTY

At the University of Arkansas, our professors don't just teach from textbooks.

They write them.

They don't simply talk about research efforts.

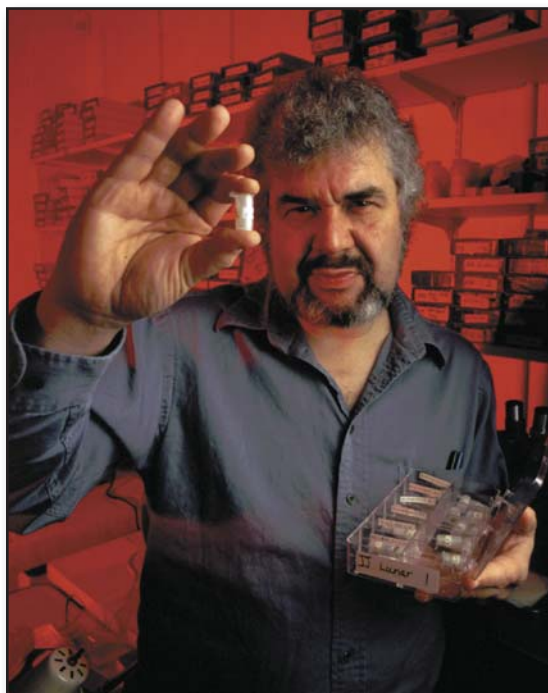

They involve you in them.

They don't read from lecture notes.

They speak from experience.

Dedicated, dynamic, and down-to-earth, our professors design courses and deliver information in ways that inspire you to think. Many of these teachers are shaping their fields through research that draws resources and recognition to the University and its classrooms. They include:

- **Lori Turner** - a professor of health sciences whose research into the causes and prevention of osteoporosis could help millions of women, young and old, maintain stronger bones and a better life.
- **Ken Kvamme** - an archeologist who uses ground-penetrating radar to discover and map ancient settlements without removing a single shovelful of soil.
- **Derek Sears** and **Tim Kral** - a professor of chemistry and a professor of biology whose research enables astrophysicists to investigate the likelihood and possible locations of life on Mars.

- **Gisela Erf** - a poultry science professor whose studies of albino chickens may one day help prevent autoimmune diseases and certain skin cancers in humans.
- **Paneer Selvam** - a civil engineering professor whose modeling experiments predict what will happen when a tornado slams into a building and whose work could help design affordable, tornado-safe structures.
- **Kim Sexton** - a professor of architectural history whose studies suggest the reemergence of the Loggia in Thirteenth-century Italy legitimized gambling and transformed the justice system from private interrogation into a public forum.
- **Amy Farmer** - a professor of economics whose work calculates the costs of domestic violence to businesses and suggests the damaging effects this crime has on social and economic conditions.
- **Ellen Gilchrist** - a professor of creative writing who has won the National Book Award, been nominated for the Pulitzer Prize, and written books that have inspired readers worldwide.
- **LaVonne Kirkpatrick** - award-winning professor of curriculum and instruction who is an admired mentor to students.

• **Dale Carpenter** - a four-time Emmy award-winning documentarian and professor of journalism at the University of Arkansas. His work includes "The Forgotten Expedition," the story of William Dunbar and George Hunter, who offered the first reports on Louisiana and Arkansas and discovered the natural hot springs that would become one of the country's first national parks.

• **Yvette Murphy** - has an extensive background in social work. As a professor in the social work department, she works with children who are raised by extended family members within the context of the child-welfare system.

• **Raja Kali** - professor of economics, recently received a grant from the National Science Institute to study and understand the evolution of industrial organization and institutional context using India's attempts to transition toward a market-oriented economy over the last decade.

• **Carol Reeves** - professor in applied entrepreneurship, is on a team of researchers who are using a \$1.25 million grant from the U.S. Department of Justice to study the effects of domestic violence in the workplace and is a mentor for students entering the Governor's Cup for Entrepreneurial Development.

• **Gregory Salamo** - serves as a physics professor of nanotechnology, and is responsible for advancing research in microelectronics-photonics. Since 2000, Salamo has been awarded more than \$15 million in grants for both research and education from the National Science Foundation, the Department of Defense, the Department of Energy, and the Department of Education.

• **Curt Rom** - professor of horticulture, teaches courses in agriculture from the introductory undergraduate level through graduate and professional courses. His research programs enable undergraduate students to participate in laboratory, greenhouse, and field research experiences. He is recognized as an outstanding professor, receiving national awards for his teaching.

• **Charles Robinson** - is director of the African American Studies Program, but his colleagues and students know him as a professor who "engages students' minds and imaginations" and whose lectures are "passionate and intriguing."

With nearly 850 faculty members, the University of Arkansas can introduce you to countless avenues of research and study. Our professors are practicing scholars, professional experts, and talented teachers who look forward to seeing you in their classrooms.

HONORS COLLEGE

The University of Arkansas Honors College serves undergraduate students across the campus and is the only honors college in the country supported by a \$200 million endowment, providing an infinite number of opportunities for undergraduates. As an Honors student, you could enjoy:

- funding for study abroad;
- student research projects supported by a \$10 million endowment;
- special housing in Pomfret Honors Quarters, which features its own dining hall, convenience store, music room, and spacious lounge;
- summer research opportunities with NASA, the National Science Foundation, the U.S. Department of Defense, and other prestigious organizations;
- early registration for classes.

Honors students, while sharing a dedication to academic success, have diverse interests, talents, and backgrounds. Athletes, artists, student leaders, and young researchers, they pursue majors (many of them *multiple* majors) ranging from philosophy to physics. They chose the University of Arkansas because they realized, as you will, that its honors programs have an exceptional record of preparing students for success.

Since 1990, Honors graduates have won:

- 33 Barry Goldwater Scholarships for outstanding achievements in mathematics, science, and engineering;
- 9 Truman Scholarships for commitment to public service;
- 5 Marshall Scholarships for graduate study in the United Kingdom;

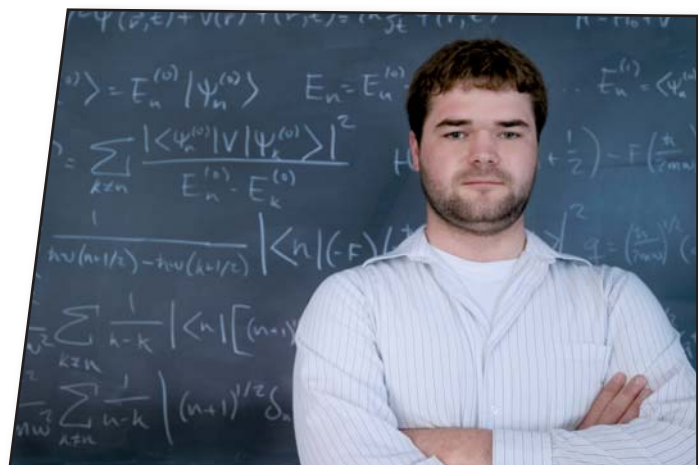

- 3 James Madison Scholarships for work in history;
- 4 Udall Scholarships for demonstrated commitment to the environment;
- Fulbright, Marshall, and Rhodes Scholarships for study abroad;
- numerous National Science Foundation Research Experiences for Undergraduates awards and National Science Foundation Graduate Fellowships.

REQUIREMENTS FOR HONORS COLLEGE ADMISSION AS AN ENTERING FRESHMAN*

- ACT score of 28 or higher
- GPA of at least 3.5 (3.75 for Walton College of Business students)

* Students who do not enter the Honors College initially may request to become an Honors student any time after their first semester; a consideration based on performance rather than test scores.

Research

KILE ORTIGO

Honors Student - Hot Springs, AR

"Honors Program participants are some of the University's best students. The program is not based in any one department or school. Faculty members and students come from a wide range of backgrounds, but we all share a love of learning."

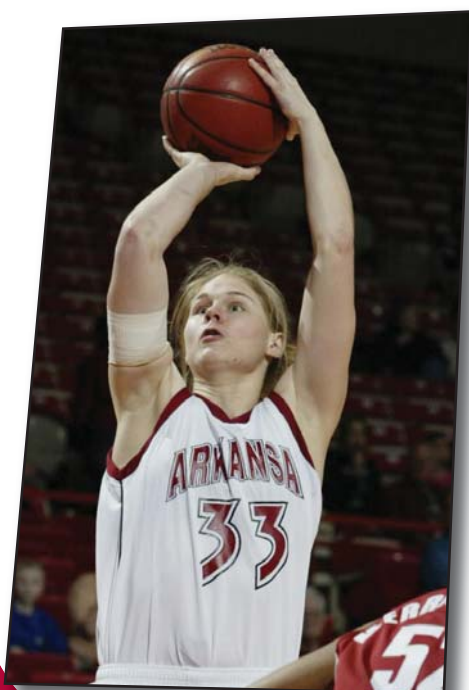

ATHLETICS

As part of our NCAA Division I teams, University of Arkansas athletes are among the most competitive in the nation, regularly taking us to Southeastern Conference match-ups and post season play-offs, earning national visibility through football bowl games and basketball's March Madness. Our cross country and track teams have won more national championships, triple crowns, and conference titles than any other program in the United States.

As a fan, you'll join the excitement in some of the finest sports facilities in the nation: calling the Hogs with 19,000 hoops' fans in Bud Walton Arena; watching the Razorbacks score a winning touchdown on one of the world's largest collegiate score boards; cheering a grand slam at America's number one college baseball field.

If you want to test your own abilities, the University of Arkansas offers a range of intramural, recreational, and club sport options, as well as many opportunities (on campus and off) for keeping fit and enjoying the great outdoors.

CLAIMS TO FAME

- 44 national championships
- 42 national championships for men's track & field programs
- 37 Southeastern Conference championships
- 33 football bowl games
- 30 post-season appearances in basketball (28 NCAA, 2 NIT)
- 15 trips to the NCAA men's tennis championships
- 18 trips to the NCAA baseball tournament
- 14 trips to the NCAA men's golf championships
- 10 Lady Razorback programs that have achieved national rankings
- 5 College World Series appearances for baseball
- 11 of the 13 SEC Western titles in volleyball
- more cross country women's titles than any other program in the SEC

SUCCESS

Our graduates range from educators and entrepreneurs to scientists and CEOs. They are dedicated professionals working with organizations in the public and private sectors, and they attend top graduate and professional schools, including Harvard, Columbia, Duke, Johns Hopkins, and Stanford. Two-thirds of our graduates (and 95 percent of our honor graduates) who apply to medical school are accepted, well above the national average of 35 percent.

Warwick Sabin (BA '98)
Associate Editor
Arkansas Times

Across the country and throughout the world, our graduates excel in their professional and personal endeavors. But as alumni of the University of Arkansas, they're looking out for your future too. Many come back year after year to hire University of Arkansas graduates. Distinguished alumni regularly return to campus to teach as visiting faculty in their areas of expertise. And other alumni serve as professional mentors to current students through our Career Networking Module.

Let's face it: your college education is an investment in the future. At the University of Arkansas, that investment pays off. Need proof? Take a look at our bottom line.

DISTINGUISHED ALUMNI

- Ed Wilson, President, FOX Television Network
- Merideth Boswell, Academy Award-nominated set decorator
- Kevin Clark, chief operating officer, ImmunoVision, Inc.
- Vern Clark, chief of U.S. Naval Operations
- Jimmy Dykes, ESPN reporter and basketball analyst
- J. William Fulbright, former U.S. senator and creator of the Fulbright Program for International Education Exchange
- George Haley, former U.S. ambassador to The Gambia
- Barry Hannah, novelist
- Tommy Holloway, manager of NASA's Space Shuttle Programs
- E. Fay Jones, internationally recognized architect
- Edith Irby Jones, medical director, Universal Healthplan of Texas, Inc.; first black graduate from the University of Arkansas School of Medicine
- Jerry Jones, owner of the Dallas Cowboys
- J. Walter Keller, inventor and developer of the heart pacemaker
- Charles King, a Georgetown University faculty member and a frequent commentator on CNN and the BBC
- Laurence Luckinbill, actor and producer
- Robert Maurer, inventor of fiber optic technology
- Rodney Slater, former U.S. Secretary of Transportation
- Pat Summerall, Fox Sports broadcaster and former NFL player
- S. Robson Walton, chairman of the board, Wal-Mart Stores, Inc.
- Elizabeth Whisenhunt, Peace Corps volunteer in West Africa
- Donna Axum Whitworth, motivational speaker and former Miss America
- E. Lynn Harris, award-winning author of eight novels as well as the memoir "What Becomes of the Brokenhearted"
- Thomas Butt, founder and president of Architect Interactive Resources

CAMPUS

Since the University's founding, the names of nearly 124,000 graduates have been etched into more than five miles of campus sidewalks, arranged by year of graduation. It's not uncommon to see alumni strolling Senior Walk to find their own names and reflect upon days of learning and lifelong friendships.

As the center of college community life, the Arkansas Union complements the academic experience through an extensive variety of cultural, educational, social, and recreational programs. These programs provide the opportunity to view course work and free time as cooperative factors in education.

Fulbright Peace Fountain and the Fulbright Sculpture commemorate the legacy of the late U.S. Senator and former University of Arkansas student and president, J. William Fulbright. Fulbright believed that education, particularly study abroad, has the power to promote tolerance and understanding among nations.

CAMPUS HIGHLIGHTS

- Arkansas Union
- Chi Omega Greek Theater*
- Fulbright Peace Fountain
- Horticultural Display Gardens
- Inn at Carnall Hall (hotel and restaurant)*
- Old Main*
- Ozark Hall*
- Senior Walk
- Silas Hunt Hall (admissions & financial aid)

*one of 11 campus facilities named to the National Register of Historic Places

was a gift to the University in 1930 by Chi Omega, the largest women's sorority in the nation. Chi Omega was founded at the University of Arkansas in 1895. Over its seven decades, the Greek Theatre has been home to commencements, concerts, academic events, and pep rallies.

Designed by noted architects E. Fay Jones, UA professor emeritus of architecture, and Maurice Jennings, the Fulbright Peace Fountain was constructed through private gifts from 115 individuals and 19 nations.

At the west entrance to Old Main, overlooking the Peace Fountain, is a seven foot bronze sculpture of Sen. Fulbright, created by artist Greta Bader. The artwork was dedicated in October 2002, with former U.S. President William J. Clinton, himself a Fulbright protégé, giving the keynote address.

The Chi Omega Greek Theatre is located off Dickson Street. The theater is a replica of one built 2,400 years ago at the foot of the Acropolis in Athens to honor Dionysus. The Greek Theatre

Connections

INVOLVEMENT

You'll find more than 230 registered student organizations at the University of Arkansas. Each student-led organization is an opportunity to get involved in the campus community, exercise your leadership skills, and form lasting friendships. The variety of groups and clubs ensures you'll put your talents to work with people who share your interests and drive.

Earn a byline, run for office, sing your heart out, debate the issues, discover your passion. What is student life like at the University of Arkansas? It's what you make it.

University of Arkansas campus life truly features something for everyone. You'll find events and activities to fill your calendar every night of the week. And if you prefer a more relaxed atmosphere, sip a mocha in RZ's Coffee House or enjoy some study time in the sun or under the shade of a tree on the Old Main lawn.

LIFE ON CAMPUS

National studies suggest that living on campus can lead to a richer and more rewarding college experience as well as a higher college grade point average. We believe living on campus is so important that we guarantee housing for all first-year students. You should expect to live on campus during your freshman year unless you're married, living with family in the area, or at least 21 years of age.

The University of Arkansas offers 14 living options, ranging from traditional residential halls to apartment-style suites to special interest units (including Honors housing). Regardless of where you reside on campus, you'll connect with caring professionals who will answer your questions or lend a listening ear any time of the day or night. All halls are wired for high-speed, direct network access for your personal computer. To learn more, visit housing.uark.edu.

Hungry? The University of Arkansas offers an array of **campus dining** choices to satisfy your appetite, including full-service dining centers, the Union Food Court, RZ's Coffee House, Club Red and other convenience shops, as well as sack lunches and box dinners. You'll enjoy a pleasing atmosphere at all of our dining halls. One of our main campus dining centers, Brough Commons, won a Design of Excellence award for Institutional Design from the American Society of Interior Designers.

Visit dining.uark.edu for more details.

Living on campus means your classes are never farther than a 10-minute walk. You'll find fitness centers, dining facilities, and student services in convenient locations throughout the University. In addition, Razorback Transit offers routes on campus and to major off-campus locations.

Believe it or not, there is a way to significantly increase your chances to earn better grades, get involved on campus, form lasting friendships, and graduate. Live on campus!

LOCATION

In the heart of the Ozark Mountains, **Fayetteville** boasts a thriving cultural scene, easy access to outdoor recreation, eclectic shops, and restaurants that serve everything from comfort food to organic cuisine. Beautiful, affordable, and easy to navigate, Fayetteville offers a host of amenities to University of Arkansas students. *And* according to the U.S. census, it is located in America's sixth fastest-growing metropolitan region.

Imagine the ideal college town: a friendly community nestled in breathtaking scenery that welcomes you with exciting culture, rich history, and a night life that never stops rocking.

With a population of 60,000, Fayetteville won acclaim as one of *Business Week's* "Dazzling Dozen" small cities in the U.S., based on its low unemployment rate and the region's surging economic growth. Conveniently located just 35 miles from the Arkansas-Missouri border and 25 miles from the Arkansas-Oklahoma border, it's the heart of Northwest Arkansas, recently included among the top four "Best Places for Work" according to CNN/Money and rated the strongest regional economy

in the nation by the Milken Institute.

At the center of this vibrant community you'll find the University of Arkansas campus with 345 acres of historic architecture, technological innovation, scenic landscapes, and academic excellence. Our campus is large but not looming, so you'll quickly feel at home. In fact, many of our graduates choose to stay in Fayetteville long after their names have been etched into Senior Walk.

Visit www.fayettevilletourism.com for more information on why Fayetteville is a city worth remembering.

DIRECTIONS TO CAMPUS

FROM THE SOUTH:

Take I-40 to I-540 North (exit 12). Travel from I-540 North to Razorback Rd. (exit 60). Turn right on Razorback Rd., heading north. The campus entrance is located at the intersection of Razorback Rd. and Sixth St. (also known as Martin Luther King, Jr., Memorial Blvd.).

FROM THE NORTH:

After Bella Vista, take I-540 South to Fayetteville. From I-540, exit at Hwy. 112 (exit 66). Turn right on Hwy. 112 and travel south for two miles until you reach the campus entrance at the corner of Garland Ave. and Cleveland St. (After crossing the North St./Wedington intersection, Hwy. 112 becomes Garland Ave.)

FROM THE EAST:

Take Hwy. 412 to I-540. See directions from the north.

FROM THE WEST:

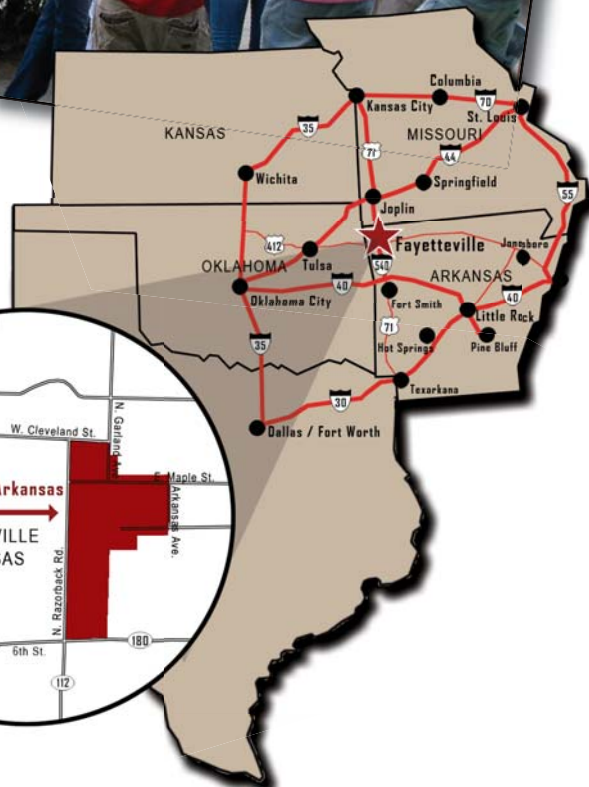

Take Hwy. 412 east via the Cherokee Turnpike from Tulsa, Oklahoma, to I-540 South. See directions from the north.

VISIT

If you're considering the University of Arkansas, we invite you to take a personalized tour of our campus. Connect with our students. Sit in on a class or two. Meet professors in your areas of interest. Find out about scholarships and financial aid. Experience the richness of Razorback traditions like Senior Walk and Memorial Bells. You'll experience first-hand the personalized attention and professional commitment we give to each University of Arkansas student.

Coming to campus? Fayetteville is conveniently located on U.S. Interstate 540 (off of I-40). The region is also served by Northwest Arkansas Regional Airport (airport code XNA), which serves a variety of major air carriers.

For additional information or to schedule a visit simply call 1-800-377-UofA or on the Web at admissions.uark.edu.
