Prescription Drug and Patient Assistance Programs

To make it easier for physicians to identify prescription programs available for needy patients, member companies of the Pharmaceutical Research and Manufacturers of America (PHRMA) created a directory listing programs that provide drugs to physicians whose patients could not otherwise afford them. The programs are listed alphabetically by company. Under the entry for each program is information about how to make a request for

Mental Health Services

In addition to the listed organizations, the mental health boards in each county offer assistance to persons with developmental disabilities and to persons with emotional or psychiatric disorders. Payment for services is based on each person's ability to pay. The boards should be contacted to determine what mental health services they provide.
