Important Features

★ Stellium in Taurus

- A stellium is a close grouping of several planets in one area of the horoscope. The sign(s), house(s) and planets incorporated into the grouping are all brought into high relief and their influence on the Nativity is intensified. (MPN)

Jupiter in Taurus (3 Taurus 28)
Jupiter in the Ninth House

Jupiter in the Ninth House (or sign) gives an out-going and optimistic nature, very idealistic and high-minded. You are freedom loving, enjoy travel and adventure, and you like being in natural surroundings. You tend to seek opportunity through education and exploring new horizons. You are generally quite successful at what you do. You like to take chances, and do not care about security or material rewards. Any work, which motivates your ideals, will capture your undivided attention, for as long as those ideals are motivated, and not longer. You are likely to be devoted to the principles of higher education, metaphysics or philosophy.

Jupiter in Taurus (or the second house) gives a person who has an appreciation of their home environment and the material side of existence. You are likely to possess luxuries and the good things of life. You are sensual and practical, and have a gift for making money. You are also fond of good food and your waistline may tend to expand. You rarely take chances, and are so secure in your material well-being that you seem not to emphasize this factor, being more interested in personal and cultural values.

Sun in Taurus (6 Taurus 30 09)
Sun in the Tenth House

- The Sun represents will and purpose, the sense of vitality, and the evolving higher Self.

In the sign Taurus it is Fixed-Earth, and rules the throat. Taureans are fond of the pleasures of life. You crave the security and comfort of relaxing in the warmth of your home environment. You also will work hard to make your home an attractive one. Your ruling planet is Venus, and you value pleasure and material things. You also have the makings of a healer. Although you are quiet on the surface, almost passive, you are possessed of a powerful will, and can be quite stubborn at times, or perhaps somewhat rigid in your thinking. You are obedient, loyal and kind. Material rewards seem to come easily to you, and you seem to lead the good life without being excessively concerned about it. You are practical, and you provide a purposeful, productive and stabilizing influence for yourself and society.

The Sun in the Tenth House represents a concentration of one's vital force to act with authority and make a responsible contribution to society. You have a great need to feel accepted and acknowledged. You may be somewhat ambitious and seek a position of honor, nobility, or leadership. Career or vocation is very important to you. The underlying factor in seeking status is that you may personally identify with your career. You may feel comfortable behind a mask or title rather than directly showing to others how you
feel from within yourself. Stimulated by your need to receive recognition, you are motivated to succeed at whatever you choose to do. Your drive, stamina, and commitment generate an aura of calm and collected inner strength. You also enjoy the idea of being famous. You are at your best when you are able to fulfill a role from which you can earn respect, and gain insight into your inner motivations. You work your way toward ambitious professional goals, sharing the fruits of your labor with your fellow man, in order to realize your true source of personal power.

Other Prominent Planets

Moon in Scorpio (6 Scorpio 25 41)
Moon in the Fourth House

The Moon in Scorpio gives a moody and serious cast to the personality. You may need to lighten up! With the Moon in Scorpio, you are very sensual, and your feelings are strong and run deep. You are passionate in your response to life. Your early home life may have been difficult, and you may react especially strongly to emotionally charged situations in your adult life because of it. You are extremely loyal. You may have a tendency toward control, or even domination of your partner. You can be stubborn, and are possessed of a powerful will. You should beware of being overly critical of others.

The Moon in the Fourth House represents an emotional sensitivity with issues of home life and the way you care for those close to you in your environment. You are naturally domestic. You are very connected with the need to feel that you are in an environment, which feels like home. You tend to be sentimental toward your family and close friends. You tend to select people around you who feel like family in some way or another. You may be possessive of your emotional attachments and can seem self-centered at times. You may sometimes withdraw into your own self as a way to create a more secure home base within yourself when you are not emotionally satisfied. You feel the need deep inside for a permanent home base. You are attached to possessions and hold onto what you have. Though you feel a need for a stable home, you may have changes of residences in your search for a secure and comfortable habitat. You also tend to hold onto your feelings. You need a creative outlet in which you can talk, write, or artistically express in order to release your deep emotions.

Neptune in Scorpio (16 Scorpio 45R)
Neptune in the Fourth House

Neptune in the Fourth House (or sign) gives an emotionally sensitive and loving personality. You have powerful psychic tendencies. You were strongly influenced by your home life, and may tend to idealize these formative experiences. You may have suffered by being let down by the same-sex parent, or there may have been an unsettled home life leading to deep-rooted feelings of insecurity. Your home is important to you, and you may change residences frequently in search of your ideal environment. You may tend to repeat previous patterns learned in early life, which would be better avoided in the adult setting. You could perhaps suffer a loss of family, or part of your family connection, leading to potentially painful realizations. These realizations may in turn lead you to a more depersonalized and spiritual basis for the concept of family life.
The following applies to your generation as a whole as well as to you personally:

**Neptune in Scorpio** (or the eighth house) gives an individual with great personal magnetism. You have a subtle intuition and unusually clear insight into the motivations of others. You also may unconsciously try to control other people, or you could be somewhat unreliable. Otherworldly affairs may interest you more than everyday ones. You are likely to be interested in psychic matters or occult studies, and should beware of glamorizing such studies for the sake of your own ego. You may have a love of sensual pleasures or luxuries. You may have some confusion regarding sexuality or with what is truly desired from relationships. You benefit from applying greater clarity to your personal values, your relation to the material world and other people.

**Saturn in Pisces (3 Pisces 06)**

*Saturn in the Seventh House*

*Saturn in the Seventh House* (or sign) gives a pleasant personality with a deepening or concentration of the power to relate to others. You are easy to get along with, and you usually do well in the areas of partnerships and business relationships. You are possessed of good judgment, diplomacy and tact. You are outer-directed. You are self-reliant and may experience a sense of isolation. You may find sorrow or difficulty in marriage, and yet rise above this circumstance, which can become an opportunity for inner integration and balancing. Your lesson is to make better use of relationship as a vehicle for self-discipline and to further your growth as an individual.

The following applies to your generation as a whole as well as to you personally:

**Saturn in Pisces** (or the twelfth house) gives a serious and self-conscious personality. You can be moody and introspective, and are compassionate and sympathetic to the problems of others. You may feel that life is too hard, or that it is beyond your conscious control. You can suffer from trying circumstances such as imprisonment either real or imagined, or you may have a strong sense of guilt, which may be generalized rather than specific. You tend to withdraw from the world, or in some way give up control. On the other hand, you may overcompensate by trying too hard to achieve control. Your true path lies in mystical self-sacrifice rather than in the more mundane life of worldly events. You possess in concentrated form the urge for spiritual evolution that is present in all of us, and which requires detachment from the personal self in the quest for mystic union with all mankind.

**Mercury in Taurus (7 Taurus 37R)**

*Mercury in Taurus* gives a slow and conservative type of mentality, which is quite well grounded in reality. With this placement you learn more from practical matters than from schooling. Ideas are not important to you if they don't have a practical application. You have an artistic quality of mind, with a well-developed aesthetic sense. You also have a strong tendency to go your own way, to believe what you want to believe. You benefit from cultivating a more open-minded attitude.

**Mercury in the Tenth** House represents a strong mental connection between one's inner awareness and one's career or professional ambitions in the world. With this placement you have a diplomatic bent, and also have the makings of a good teacher.
You are likely to learn quickly from hands-on training or the practical application of knowledge. You are likely to be determined and careful in your speech and communication with others, as well as with respect to your own mental activity, and have good concentration and attention to detail. You are also acutely aware of your surroundings, and can help keep others on track with the reality of what is going on. You benefit from lifting your vision to the higher issue and cultivating idealism.

**Uranus in Virgo (6 Virgo 02R)**

**Uranus in the First House**

Uranus in the First House (or sign) gives an individual with an original and eccentric mind, whose intuition is strong. Change and variety excite you. You are a nonconformist, and totally have your own code of ethics. You are constantly asserting your freedom and independence, which is the very breath of life for you. The Uranian energy can be impulsive, as well as insensitive to others’ needs, and you can appear to be cold at times, or you may seem to be more excited by ideas than by other people. You may feel unrest and isolation, as though on a separate wavelength from the rest of mankind. Your mutability and urge for constant change can frustrate or confuse those around you. You may also feel uneasy in your sense of self, as you attempt to come to terms with this basic instability. You benefit from more balance in applying your energy, and awareness that everyone is not as impulsive as you are. You are a free spirit, courageous and pioneering, whose mission in life is involved with bringing new ideas into being.

- *The following applies to your generation as a whole as well as to you personally:*

Uranus in Virgo (or the sixth house) gives an individual with a clever and enthusiastic mind, original in thought and action and not comfortable with routine. You are likely to have a scientific and analytical mentality. You can also be impatient with others, or lacking in sympathy for their concerns. You like to change jobs, and you can be a hard worker, if allowed the freedom to work as you feel motivated. You may have to struggle with organizational elements at the expense of performance. You may have health problems, since the Uranian energy is fitful in its application. You also may experience difficulty with keeping things in order, but this can be overcome through persistence. You are likely to be interested in new-age healing techniques. You benefit from transforming your original creative impulse into a more long-lasting and concrete result through concentration and technique.

Sun, Moon, Rising Sign Features

- **Sun in Taurus (6 Taurus 30 09) in the Tenth House**

  ◆ Sun in strong opposition (within 0.1 degrees) with Moon

  The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.

  This aspect gives a willful and strong-minded individual. You may have two sides to your approach to life, which do not always blend harmoniously: your will and your instinctual, or more emotional, self. You have a high energy level and good intelligence, and are very aware and alert, but you may feel a conflict between your public and private lives or the work you set out to accomplish versus your personal goals. You may have experienced your parents as inharmoniously related to each other and also may have a tendency toward argument and conflict in your own interpersonal relationships. There is a creative tension in your relationships, and also internally within your own personality, that may lead you to accomplish much in life, through the path of struggle rather than the path of ease and comfort.

  ◆ Sun in strong conjunction (within 1.1 degrees) with Mercury

  The strongest blend of the energies represented by these two planets.

  This conjunction gives a person who values mental pursuits highly. Your logical and communicative abilities are excellent. You are quick-witted and glib, and can also be nervous and high-strung, or perhaps stubborn and difficult to shake from your opinions.

  You are an independent thinker with your own way of looking at things, and may be inspired and even visionary in your outlook. Although you value mental pursuits, when the Sun and Mercury are quite close to each other, within a degree or so, you may be more inclined to take a broad view of life’s activities and not consider things from a strictly mind orientation.

  ◆ Sun in strong conjunction (within 3.0 degrees) with Jupiter

  The strongest blend of the energies represented by these two planets.

  This conjunction gives an optimistic and self-aware individual, with high ideals and good vitality. You are likely to be spiritually motivated in some form, and possess a quiet strength, which is invariably helpful to others. This takes you far in the world. You also have good executive abilities. Honors and material success usually accompany you. Your tastes are simple, so that your wants are few and easily satisfied. You are attracted to higher learning, and the fine arts, and are courageous and loyal. You are likely to have benefits from your father, either materially or by inheritance of other kinds.

  ◆ Sun in strong trine (within 0.5 degrees) with Uranus

  The planetary energies flow smoothly; the connection is easy and beneficial.

  This aspect gives an independent and strong-willed individual. You can be determined to get your own way, and love freedom from conventionality. You like to start new projects,
or make major changes in your life, but without completely eliminating previous foundations. You may feel conflicts with the norm. Because you are unpredictable at times, it can be hard for others to be comfortable with you. You are an original and independent thinker with an active, scientific mind, futuristic in outlook, and are capable of bringing new ideas into being. You may have issues with commitment and responsibility. Your task is to fully express your visionary impulses in order to make these more concretely available in your own life, and in the life of society around you.

You have a strong desire for recognition. In later years you will probably acquire a firm basis for respect in terms of accomplishments over a lifetime of careful and industrious effort. The lesson for you is to deepen and broaden the knowledge of who you really are at the level of your innermost soul, and to really learn to love the person that you find in this process.

❖❖❖❖

Sun in trine (within 5.3 degrees) with Pluto

*The planetary energies flow smoothly; the connection is easy and beneficial.*

This aspect gives a willful personality with a focus on being recognized and admired. You have strong desires, and you also have a powerful urge toward self-transformation, and may go through many changes in your life. You are not shy about expressing your beliefs, and you may even feel a compulsion toward self-assertion or self-aggrandizement. You also tend to champion the underdog, and react strongly to social injustice. In relationships, you tend to become intensely involved quickly, and stay absorbed in the relationship as long as it lasts. There may be underlying feelings of insecurity leading to your rather self-centered and ego oriented behavior. Exploring these feelings can be incredibly rewarding for you, and should be quite possible, for you have tremendous powers of regeneration and rebirth. When you learn to train your considerable energy on these socially oriented as well as personal goals, you can become a focal point for the transformation of society itself.
• **Moon in Scorpio (6 Scorpio 25 41) in the Fourth House**

  ◆ **Moon in strong opposition (within 1.2 degrees) with Mercury**

  *The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.*

  This aspect gives a brilliant mind with a sharp tongue and a witty personality. You are an independent thinker. You can be sensitive at times, and you may find yourself overly concerned with health issues. You may appear to have the attitude of the reformer toward your fellow man, because you have a tendency to let your emotions run away with your thoughts. You should beware of a tendency to indulge in gossip at times, or to speak disparagingly of other people. However, you make a loyal ally and will fly to the defense of a friend.

  ◆ **Moon in strong opposition (within 3.0 degrees) with Jupiter**

  *The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.*

  This aspect gives an optimistic and kindly personality. You are tolerant of others, and enjoy good company as well as good food. You are likely to be fortunate in finances, and attract material rewards without seeming to try for them. You are usually able to spend money as fast as you get it, so you don't usually pile up riches. You should beware of a tendency to over-indulge.

  ◆ **Moon in strong sextile (within 0.4 degrees) with Uranus**

  *The planetary energies flow together, open into new possibilities, new connections.*

  This aspect gives a unique individual with an energetic personality, and with a strong sense of intuition. Novelty excites you. You like to explore new horizons. You enjoy meeting people and have an enthusiasm, which is appealing. Your early home life was probably very stimulating and challenging. You may be interested in studying occult realms of thought. You are able to benefit from fundamental transformations of identity in your life, and are quick to take advantage of new opportunities. You are very original and individualistic and may have difficulties in settling down with a steady partner. You can benefit from learning to balance your needs for security with the urge for freedom and experimentation.

  ◆ **Moon in strong opposition (within 2.7 degrees) with Midheaven**

  *The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.*

  This aspect gives an emotionally sensitive personality who is nurturing and caring. You may be over-dependent on others for your own feelings of self-worth. It is important to you that others look up to you. You do well in a business setting, having a dramatic presence that gives you natural abilities to influence others, and an attitude of caring that makes you easy to get along with, but you may have difficulties due to being changeable and engaging in political game-playing. You set priorities based on people rather than strictly on profits.
Moon in sesquiquadrate (within 0.4 degrees) with Venus

The planetary energies conflict in determined subtle tension; control is required. This aspect gives you a somewhat difficult personality. You are kind and artistically gifted, but you may be hard to live with. You dislike having to act charming in social situations when you may not really feel it, and you have a reluctance to come forward into relationship with others, although you have a good deal of charm when you allow yourself to express it, and can be very popular socially. You may encounter sadness in your life as a result of close personal relationships that go astray. You also may spend your money foolishly, and need to cultivate more respect for its value.

Moon in trine (within 3.3 degrees) with Saturn

The planetary energies flow smoothly; the connection is easy and beneficial. This aspect gives a deepening and concentrating in the expression of your feelings. Usually there is caution and reserve in your make-up, along with a good sense of the practicalities of life. You may be extremely sensitive. You may have had a strict upbringing. The parental figures, in your life, especially your mother, may have been experienced as rejecting or uncaring. You may experience some difficulties in your relationship to the feminine. You may also benefit from relationships with powerful feminine figures, symbolic of the powerful feelings, which need fuller expression in your own nature. The lesson for you here is to understand and value the true roots of your being more fully and deeply, leading to a better sense of security and greater self-acceptance.

Moon in sextile (within 5.3 degrees) with Pluto

The planetary energies flow together, open into new possibilities, new connections. This aspect gives a moody and introspective personality with a strong desire for emotional security. You are likely to be very sensitive and emotionally extreme, with a tendency to become completely absorbed in interpersonal relationships. You are also an extremely forceful individual, with the urge to transform yourself and your surroundings. When you have a goal in mind, nothing will stand in your way. Your need for security may manifest as an almost compulsive desire for a safe and secure home life, or a home environment, which can be completely controlled, possibly even through dictatorial behavior. You have an unusually clear insight into the emotional depths of other people, which may border on an actual psychic attunement with their states of being. You also have the urge to break through the limitations of the parental influence you experienced as a child. You may have experienced controlling behavior on the part of one or both parents, especially your mother, and you may find yourself still involved in the battle for your own autonomy many years later. These struggles can be worked through in your life, beginning with a deeper understanding of what it is you truly need on an emotional level. Your challenge is to transform your sense of insecurity, by coming to terms with your survival issues based on a better insight into your own hidden motivations.

The ruler of your Sun Sign is
Venus in Gemini (21 Gem 04)
Venus in the Eleventh House

- The ruler of your Sun sign is characteristic of your personality:
Venus in Gemini gives a charming, light and airy personality. With this placement, musical talent or writing ability is definitely indicated. Your personality is expressive and playful, and you are fun to be around. You have many varied interests and associations, so many that you can have a tendency to superficiality. You may tend not to take life very seriously, or engage in a variety of pursuits without narrowing down to one focus. You are quick to give as well as take affection, and also somewhat erratic in the gift of it. You benefit from a more concentrated and single-minded approach to one person or goal.

Venus in the Eleventh House represents a strong connection between artistic sensibility, what one values, and group associations or ideals. You are very interested in groups and society in general. Your love and affection may express itself more for the general and all-inclusive vision of social connectedness than for any particular person, even your significant other, or others. Like persons with Venus in Aquarius, you function well in friendships and acquaintances, but you may not be happy in intimate relationships. Your love is broader and more general, and you may be given to spiritual or philanthropic activities. You are likely to possess artistic ability toward music, poetry or painting. You have an idealistic vision for the integration of society into a more unified whole that drives your basic approach to life.

★ Leo Rising

- The Rising Sign is the mask shown to others, also the physical appearance.

Leo Rising people are dramatic, extroverted and assertive. Your ruling planet is the Sun. You have great energy, courage and honesty, and are very creative, self-confident and perhaps a bit self-indulgent. You expect to be the center of attention, and often are. Even so, people forgive you for your excesses, sensing in you the incurable romantic. You are likely to have a leonine appearance, with a thick mane of hair and a dramatic flair to your clothing and appearance. You also enjoy the warmth of the physical sun. You are determined and usually get your way when you really want to. You also possess great integrity, and are a natural leader. Leo people are very proud, and your challenge is not to be arrogant or egotistical, but rather to develop humility and compassion, and to learn detachment in the gift of your affections.

♦ Neptune in strong square (within 1.9 degrees) with Ascendant

The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.

This aspect gives a highly sensitive, visionary and creative individual. You are somewhat unworldly. You are likely to be artistic or musical. You are softhearted, and you may be perhaps even too willing to sacrifice yourself for the good of others. You may have problems in feeling free to assert yourself, or have issues with lack of self-confidence, self-deceptive illusions, or drugs. You may also be dissatisfied with work activities, or evade decisions, or practice other forms of escapism. You may have issues with deceptions practiced on you by other people. The development of a clearer sense of self is required. The otherworldly energy of Neptune must be used wisely. When the proper outlet is found, tremendous creativity is possible, perhaps manifested through artistic channels: music, drama, and poetry. Your lesson may be to achieve a balance between the spiritual dimension of reality and ordinary life.
◆ Venus in sextile (within 2.4 degrees) with Ascendant

_The planetary energies flow together, open into new possibilities, new connections._

This aspect gives a warm-hearted, affectionate and perhaps manipulative personality. You are cheerful, charming and likable. You may also be very beautiful, particularly at the soul-level. You are sensitive, with an inclination for artistic pursuits and refined surroundings. You may possess considerable talent for the arts, especially music and dance. Relationships are important to you. You are also firmly in contact with what you want and you are likely to be quite successful at getting it. With your poise and charm, this is usually not difficult for you. In fact, things may be a little too easy in your life, and you benefit from the depth of experience that moderate hardship can bring.

◆ Mars in trine (within 3.1 degrees) with Ascendant

_The planetary energies flow smoothly; the connection is easy and beneficial._

This aspect gives an active, out-going and self-confident personality. You are daring and have great physical vitality and stamina. You are likely to possess a wiry and spare physique. You are also probably athletic and hard working, perhaps argumentative, and you can definitely "hold your own" in a dispute. You may be so independent that you seem not to care for the opinion of anyone else! Your confidence, independence and will power inspire others, but you should beware of abrasive behavior towards them, such as bragging or pushing yourself too much. You should instead try for much-needed physical activity as an outlet for your abundant energy.

◆ Chiron in inconjunct (within 1.2 degrees) with Ascendant

_The planetary energies do not flow smoothly, one or the other predominates; discrimination must be employed._

With this aspect between Chiron and the Ascendant in your chart you are likely to experience painful realizations throughout your own life and have the ability to heal others as well. Chiron is called "the wounded healer" because it represents the archetype of imperfection and loss which when integrated leads to compassion and understanding of others' suffering. The empathy and the understanding that are gained through life's trials provide the ability to serve as a helper and a healer for others. You are more invested in this archetype than most, since Chiron is in a powerful connection with your rising point, symbolizing the self that you present to the world, esoterically your true self. You have probably experienced pain and frustration related to your self-concept, or there could have been trauma in your early years concerning parental protection, which may have been withdrawn too suddenly or misapplied, or perhaps similar issues with your peers. These early experiences may have made it hard to accept the love of others in your adult life. It is good to make the effort to connect yourself consciously with any painful events that may be buried in your unconscious, so that these will no longer have so much power over you. Since you have a great deal compassion and empathy for others you are likely to be someone with career possibilities in the helping professions. You may strongly desire to help other people, and yet be unable to give them the full benefit of your higher self. It is good to integrate your past experiences, no matter how painful they may have been, and no matter how painful these feelings continue to be for you in adult life. When you have made a solid transition from existing in a divided state to a more balanced and integrated whole, you can be of much more actual service to other people, since you are more available to yourself.

Other Natal Planets

Mars in Aries (21 Aries 46)
Mars in the Ninth House

Mars in the Ninth House (or sign) gives a friendly and optimistic nature, spontaneous and impulsive. You are sometimes scattered in the application of your energies, and need to work at being more reliable. You lead a physically active life, and love sports and gambling. You are idealistic, and outspoken and honest with your opinions. You also have a propensity for higher learning. You have a kind of haphazard way of going about things that can get you into trouble, and tend to miss the details, by focusing on "the big picture". You could benefit by learning to slow down and concentrate your energies.

Mars in Aries (or the first house) gives an independent and positive nature, outwardly directed and ambitious. You possess great strength of character as well as an inordinate degree of self-assertion. You are a formidable adversary reacting aggressively when threatened. You are extremely courageous and enthusiastic, but you can also behave impulsively. You may need to work on a tendency of being too quick to anger, which can cause you problems, or you may also cause trouble for yourself by being unable to compromise, especially if Mars is afflicted in your chart by challenging planetary aspects. You will benefit from cultivating better self-control and a greater degree of unselfishness.

Pluto in Virgo (11 Virgo 46R)
Pluto in the Second House

Pluto in the Second House (or sign) gives a personality somewhat focused around the issues of money and material possessions. With this placement you are on a path of transformation of your attitude toward the material, and of your values in general. You may have a tendency to associate a sense of security with material possessions, or possibly compulsive expenditures may be a problem. You can overcome these tendencies by self-discipline and re-aligning of values. When your values are transformed, your sense of self no longer depends on physical possessions, but rather depends on the deeper meaning associated with these things, which are symbolic of love and sharing.
The following applies to your generation as a whole as well as to you personally:

Pluto in Virgo (or the sixth house) gives a personality with a compulsion to be of service to other people. This compulsion can take the form of activities which are intended to be helpful, but which may not truly be appreciated by the intended beneficiaries. You could also be obsessive regarding health issues, or regarding organizational detail, which is intended to purify the particular activity, but which can become an end in itself. There is a need for transformation in these areas, in order to learn how to be of actual service to yourself and others, such as a career in the helping professions, or working on your own issues in such a way as to regenerate your values and life direction.

Chiron in Pisces (17 Pisces 27)
Chiron in the Eighth House

Chiron in the Eighth House (or sign) represents issues with one’s vital force to transform and to regenerate. With this placement you have a strong compulsion for intimate connection with other people that does not easily find its realization. You are likely to have been wounded in your sexuality in some fashion, possibly through early experiences that may even include abuse, either physical or emotional. As a consequence, being close to other people becomes both desired and painful. You may hold off the prospect of closeness with others with some carefully engineered defenses, such as retreating from expressing your true feelings by means of clever Dylanesque obfuscation, or perhaps by using other people before they have a chance to use you. If you retreat into cleverness and mental gymnastics rather than risk staying with your actual emotion, you leave these feelings unexpressed, and continue a process of being out of touch not only with the intimate other, but with the deeper part of yourself as well. Your journey of discovery of your true emotions, the poignant and vital basis of your inner life, is ultimately the most important one for you, and provides rich rewards as you begin to consciously experience these inner depths of your being, over a period of time. In this journey you will reconnect to your own long buried emotions, and through this process to others as well. As you begin to find yourself and your power, and are truly able to work with other people, you may be able to provide a sense of hope to them in their own individual journeys as well, through the increased consciousness you have gained.

The following applies to your generation as a whole as well as to you personally:

Chiron in Pisces (or the Twelfth House) represents issues with one’s vital force to be at home in the world of physical manifestation. You may feel frustrated and alienated from the rest of mankind, or more at home in a world of fantasy than in dealing with what is laughably called “the real world”. You have a talent for that which is beyond this world, and can make your mark on it in your own particular fashion, which may perhaps be achieved in the worlds of music, or poetry, or as a seeker for higher truth. But these are ways of being in the world without actually participating in it. Possibly there were painful episodes from early childhood that drove you into a world of your own, but you have come to be quite at home in this world, and the issue for you is coming out with style and dignity, rather than by totally abandoning your inner cosmos. Again and again, you attempt to be a part of it all, just like everyone else, and again and again it just doesn’t quite work. There may be many painful episodes before you realize that what is “for everyone” out there is just not for you at all. You may do work with other people, in helping them to be peaceful and comfortable in connecting their own lives to a higher
truth, without ever really getting it yourself. Of course one is tempted to blame oneself for this sort of failure to connect. There are deep emotions associated with withdrawal from the world that must be examined if you are to begin to operate from a feeling of wholeness and truly make your own way. There is a part of you that has been carefully hidden away, defended from the pressures of consensus reality, and it may take a lot of work to get in touch with these dark places. It may be that you come to a sense of peace with your darker, more hidden self only after a long period of soul-searching. When you begin to make your way on this process of integration, then you find that there really is a way to be a part of the world at large, to participate and share in its wonders and its disasters too, without giving anything up. It is not easy to make this transformation, but it is vital to your emotional health and well being, and makes it possible for you to reach out to others as well, who may be fumbling towards a similar apotheosis.

N Node in Cancer (3 Cancer 34R)
N Node in the Eleventh House

Lunar North Node in the Eleventh House (or sign) / South Node in the fifth house or sign. This placement gives an individual with a focus on friendships and social groups. Although creativity on a personal level comes easily to you, and working creatively with other people is more difficult, it is the more difficult that you must attempt in this lifetime. In the past, or in previous lifetimes, you were proud of your individuality and of your individual contribution. You may have had an ego attachment to the products of your personal energy, and were on the other hand not very interested in promoting social values or a group ideal. Now, in this lifetime, you find yourself envisioning possibilities for larger social groupings than just yourself and your immediate family. Perhaps the betterment of all of society becomes your focus now. As you develop along your evolutionary path you find that you are ever more future-oriented and socially responsible, for this is the way for you to find your true fulfillment.

Lunar North Node in Cancer (or the fourth house) / South Node in the tenth house or sign. This placement gives a strong desire for emotional security. You may feel you are a special person, a person of great achievements, and you may even feel isolated in your specialness, for in the past or in previous lifetimes you spent a great deal of your energy on getting to the top. But as the refrain goes, "It's lonely at the top" and your focus now will be on getting a better sense of who you really are, at the level of your emotional roots. You will find as you advance in your life, that your home life is extremely important to you. Exploring the depths of your being through meditation or some sort of transpersonal process work will also be extremely beneficial. You may feel tempted to go out and achieve in the world of career and public life, for which you have a natural affinity. However, it is in the area of establishing a secure base of operations, and of nurturing your immediate community of friends and family, that you find your greatest fulfillment this time around.

You may however become so focused on the emotional charge with which you hold these ideas that you lose a certain sense of perspective regarding them. In other words, you can be compulsively attached to your communication or the results of your mental process, so that there is a danger that you may feel yourself to be correct in what you say, in spite of what others may think. You should also beware of a tendency to be manipulative in your dealings with other people, since you have a forceful will in association with your powers of speech and communication. You can be a great source of inspiration when you use your powers of insight and expression responsibly, enabling you to share your gift with your fellow man.

You may have had early childhood experiences that made it hard to accept the love of others in your adult life. With these distractions, you also may strongly desire to help other people, and yet be unable to give them the full benefit of your higher self. It is good to make the effort to connect yourself consciously with any painful events that may be buried in your unconscious, so that these will no longer have so much power over you. You also may have been wounded in your spirituality in some way; perhaps in your early life you were forced into relationship with some sort of spiritual community to which you did not feel a connection. These two planetary energies, Jupiter and Chiron, both have a strong spiritual component, but operate in different ways. With Jupiter's optimism in support of Chiron's tendency for pain and suffering as a way toward the light, you are always able to rise above distressing circumstances, buoyed up by a
strong streak of faith in the ultimate beneficence of Spirit. In fact, positive outlooks can become something of an obsession with you, so that friends and associates get tired of your unflagging optimism even though you are such a helpful companion. You have an abiding interest in matters of the religion and philosophy, although this is likely to represent your own style of spiritual involvement rather than any standard form of spiritual institutions.

You may have a strong desire to move on to new ideas, yet refuse to let go of conventional attitudes that stand in the way. Your challenge is to move from a knee-jerk reaction against established authority or in favor of it, toward establishing your own personal authority, in your own way, and to help make your brilliant visionary impulses available to society at large.

❖ Pluto in trine (within 2.7 degrees) with Midheaven

In feeling unfree to assert yourself, you may engage in self-deceptive illusions, or even the use of drugs. You also may have issues with deceptions practiced on you by other people. In order to develop a clearer sense of self, accurate feedback from other people is crucial, so that to avoid these traps, you should strive for utmost honesty in your dealings with others. The otherworldly energy of Neptune must be used wisely. When the proper outlet is found, tremendous creativity is possible, perhaps manifested through artistic channels: music, drama, and poetry. Your lesson in all this is to achieve a balance between the spiritual dimension of reality and ordinary life.

- Moon in weak trine (within 11.0 degrees) with Chiron

  *The planetary energies flow smoothly; the connection is easy and beneficial.*

  With this aspect there are difficulties indicated in relating to the feminine - either significant female presences in your life or else and including your own feminine side. This would be true, and different in its sense, in either a man's or a woman's chart. Of course the important early model for the feminine is mother, and it is likely that you have a deep and intense relationship with your mother, which may have been productive of much wisdom. There also may be emotional scars from the very intensity of your experience together. These experiences may be so painful that they become suppressed from consciousness, buried deep in your psyche. In your adult life, it is important to move past any resentment you still feel, caused by early wounding in your relationship with the female part, or nurturing influence, of your own nature. This will allow you to begin to move into a more conscious and compassionate reconciliation with your walled off parts. Once you have begun to make conscious any pain and alienation you may feel surrounding events from the long buried past, you can begin to truly help others as well as yourself. A creative side of your nature may emerge like a butterfly out of the outgrown past.

Overly active interests in sexuality, the potential for the abuse of power, ultimately powerful healing abilities, all are indicated. There are great depths of passion within you, likely the result of painful experiences from early childhood. As long as these experiences remain unintegrated, they will cause a stir, both for yourself and for anyone you become close to. When you become more conscious of these patterns you have a great capacity to heal yourself and others. You also have a keen intuition and great power to transform yourself and your personal relationships as you evolve. You may be one to harness the energy of the collective, especially with regard to the coming transformation of society.
