

Syllabus & Student Guide Quiz
Math 115 Section 024 , 01/16/2020

Name: _____

Decide whether each of the statements below is *True* or *False* as stated.

Write the entire word *True* or *False*. You do not need to explain. (*1 points each*)

1. At the end of the semester, every section of Math 115 will have the same number of A's, B's, etc, so what is important is how you do in comparison to the other students in your section.
2. Your score on the Gateway Exam is worth 10% of your final course grade.
3. In order to be successful in this course, a student should expect to spend a total of at least 8 hours outside of class per week working with the course material (doing homework, reading the text, etc.).
4. If you do not complete a WeBWorK or Team Homework assignment by the deadline, you can finish it within the following day for partial credit.
5. The midterm exams (Exam 1 and Exam 2) take place during the regular class meeting time.
6. If you are performing poorly on quizzes and team homework due to lack of effort, your course grade can be lowered by a full letter grade.
7. If you miss a quiz, there is no way that you can make it up later.
8. Grades in Math 115 are based on a traditional scale (90–100 A, 80–89 B, etc.).

Note: The following question is not true/false, and it counts as 2 points.

9. What is the penalty for failing to pass the gateway exam before the deadline in Math 115?
