Solution to Its Quizzing Time

This puzzle is fairly straightforward. The first thing to do is to find answers to all the questions. The answers are listed below.

- Fantasia.
- Oedipus. The last line is a quote from a Woody Allen movie called "Mighty Aphrodite" :)  
- Unidentified Flying Object. CE stands for Close Encounter. This is a slightly vague question because of the possibility of multiple answers such as aliens, ETs and most likely UFOs. However, in the context of the puzzle, it should be easy to determine that the answer starts with a U and contains at least 4 letters.
- Rosebud
- Toblerone
- Harlequin
- Louis Braille (Here, as in everywhere else in this puzzle, full names must be used)
- Erik, the phantom of the opera. The novel itself doesn’t give any last name for Erik
- Tylenol
- Teddy Bear
- Edward Gibbon, author of The History of the Decline and Fall of the Roman Empire
- Roulette
- Ray Bradbury
- El Al, the Israeli commercial airlines
- Voyager
- Egypt, these are the countries from which the U.N security generals have hailed so far
- Roaring Forties
- Salome. The playwright is Oscar Wilde
- Elevator

The first letters of the answers reads "FOURTH LETTER REVERSE". This suggests that you take the 4th letter of each answer in the reverse order (Ignore any spaces in the answers). Doing this gives us "VORPAL BLADE KILLED IT". The answer is Jabberwocky, according to Lewis Carroll’s great fantastical poem of the same name.
